

## What will proceeds support?

### Access

Access is about providing our community with safe, convenient, affordable and high quality care close to home.

### Innovation

This new center is being designed with innovation at the forefront.

### Patient Experience

Through the creation of modern spaces, patients will experience better wayfinding, soothing environments and an overall sense of healing.

## Why FOREVER Forward ?

### Hamilton County Challenges

Hamilton County and our surrounding area suffers from a huge gap in health equity. The inability of our community's most vulnerable citizens to overcome economic, educational, environmental and social constraints plays out in far worse health outcomes every day. Life expectancy at birth varies by up to 20-years difference for residents in bordering neighborhoods. Solving this problem will require new, proactive models, partnerships and prevention.

### Investing in Infrastructure Benefits

Maintaining a strong health hub provides communities like ours with something unique...the ability to access care without the risks and inconvenience of travel. But it also does so much more; it provides a learning environment to train the doctors and nurses of tomorrow; it enables collaboration which leads to better outcomes; it assures that the very best talent can be recruited and retained; it provides a home for the very best technology and patient-centered environments to exist; it strengthens the local economy and perhaps most importantly it ensures that the true stakeholders in our community, our neighbors, forever remain the focus of our healing ministry.

## About The Good Samaritans

# What Forever Forward Impacts:

Good Samaritan Hospital will undergo an evolution in the years to come. Motivated by our mission to serve, a modernized, much-needed state-of-the-art healthcare facility will better meet the evolving needs of our community. Facility advancements and infrastructure will total a \$240M investment into the lives we serve every day. Beginning with a new ambulatory and surgical center and relocation of the Cancer Institute, along with expansion and growth of the Cancer Institute and Heart Institute, a relocation of the emergency department, and centralized ambulatory diagnostics, an easier wayfinding experience for patients and families will streamline access to critical care.

Dr. George Kertakian, 2023 Gala Physician Champion

*Forever Forward is about people - it's about beliefs, community, and resiliency. It's a relentless commitment to the Good Samaritan way of compassionate care.*
